### WANT CONVENTION TO ACT

Higher Bond Limit the Desire  
of the Ohio Federation.

#### PRELIMINARY STEPS TAKEN

Proposition to Make the Bond Limit One Per Cent of the Grand Duplicate to Go Before the Constitutional Convention—Campaign of Education on the Good Roads Question About to Be Launched by Representatives of the Federation.

Columbus, O., Aug. 31.—Expansion of the bond issue limit law will be advocated by the Ohio Good Roads Federation at the state constitutional convention here the coming winter. With this end in view a campaign of information will soon be started. The raising of the bond limit is regarded as the first step necessary to the construction of a system of intercounty roads.

Under the present constitution, the bond issue limit is \$750,000, which also includes school bonds. This sum is regarded as ridiculously small when Ohio expects to have a grand duplicate of more than \$6,000,000,000. The proposal has been made by the proponents of good roads to have the bond issue made 1 per cent of the grand duplicate. It is argued as a matter of fact a bond issue would probably not be needed for any other purpose than good roads.

The federation proposes to conduct a campaign of education on the good roads question between now and next January with the view that whatever sentiment there may be against a large issuance of bonds by the state may be overcome.

Under the general plan outlined by the good roads federation, for a system of intercounty roads connecting every county seat, the state would pay one-half the cost and the county, township and property owners the other half. Thus if the state voted to issue \$50,000,000 bonds it would mean \$100,000,000 for good roads at one jump.

## CLAIM THAT HER ACCOUNTS ARE FALSE

#### Indiana Authorities Searching For a Young Woman.

Indianapolis, Aug. 31.—The state authorities are searching for Miss Myrtle Densford, until recently a deputy in the office of the state inspector. It is charged that there are many irregularities in her accounts and that there are evidences of raised vouchers and forgery of seals of notaries public for which she only can account. In the meantime she appears to have fallen out of sight. It is said that discrepancies have been found in vouchers which were tampered with before they reached the auditor of state for payment. An instance is cited of a livery bill for \$2 which was raised on the voucher to \$12. Another bill for 50 cents was raised in a voucher to \$20.50. These are said to be examples of the alleged manipulation of the records. The money on the express vouchers was paid to Miss Densford and transmitted by her to the various deputies.

#### Valuation of Ohio Railroads.

Columbus, O., Aug. 31.—After laboring for months the state tax commission today placed the final valuation on Ohio's steam railroads at \$573,234,249, an increase of \$106,764,650 over the valuations made by county boards in 1910. The valuations of eight railroads are yet to be given out. These companies are withheld for further consideration, as the properties involved in the operation are divided in such form that the commission must investigate further, probably for a month or more.

## CHARGE OF PASSING "THE QUEER" IS LODGED

#### Five Years' Chase Ends With the Arrest of a Negro.

#### OUTFIT AND COINS ALSO SEIZED

Clew Found at an Emancipation Celebration at Paducah, Ky., Whence the Trail Led to Memphis, Where the Detective Landed His Prey. Progress of the Sleuth's Search Recorded Every Day at Secret Service Headquarters in Washington.

Washington, Aug. 31.—A five-year hunt for a counterfeiter of silver dollars reached its climax in Memphis with the arrest of John F. Payne, a negro, and his wife.

For more than five years the dollars which Payne is charged with making have been passing through the banks in Memphis, and some have even reached the treasuries.

Three months ago Assistant Chief W. H. Moran sent Detective Bill Nye to Memphis. A few weeks later at a negro emancipation celebration at Paducah, Ky., Nye picked up the first information which led to the identification of Payne as the man alleged to have been passing the dangerous coins. Nye followed Payne back to Memphis, consulted with Moran, and the two men laid out a campaign.

Then Nye began picking a trail through the streets of Memphis to Payne's house. Every day Moran, in Washington, with a pen and red ink, recorded the progress of Nye's search upon a map of the city of Memphis. A few days ago the thin red lines came to an end in the suburbs of Memphis, eight miles from the heart of the city. It stopped in front of an isolated farmhouse surrounded by a high board fence. Moran flashed a message over the wires to Memphis and a few hours later Nye reported the arrest of Payne and his wife, as well as his capture of several of the counterfeit coins, the outfit for making them and the genuine dollars from which the molds were made.

## BOLSTERS UP BEATTIE STORY EVIDENCE AS TO BEARDED MAN SEEN IN THE VICINITY IS OFFERED BY ACCUSED

#### Testimony Offered In Murder Trial By the Defense.

#### WITNESSES SAW STRANGE MAN

Quarryman Swears That on the Evening of the Day Mrs. Beattie Was Killed a Rough-Looking Man Wearing a Beard and Carrying a Gun Was Seen Walking Along the Tracks Three Miles From the Scene of the Tragedy.

Chesterfield C. H., Va., Aug. 31.—Testimony corroborative of the story told by Henry Clay Beattie, Jr., that a bearded highwayman killed his wife with a shotgun, was introduced by the defense in the Beattie trial when W. R. Holland, a quarryman, who lives in the vicinity of the Midlothian turnpike, where the murder took place, declared he had seen a rough-looking man answering the description of Mrs. Beattie's assailant, as the prisoner himself has given it, who was walking along the tracks of the Southern railroad, three miles away from the scene of the homicide, with a single-barreled shotgun over his shoulder.

Further testimony tended to trace the movements of this armed man from 5:30, the hour when the witness saw him, up to near 11 o'clock, when Mrs. Beattie was fired upon. Another witness took the stand to testify to having seen an unusual looking man on the Midlothian turnpike on three separate occasions before July 18, the day of the murder.

Beattie's description of his wife's assailant is that he was six feet tall, very powerful in appearance, seemed to be about 55 years old and had a growth of grayish whiskers covering most of his face.

Paul Beattie was called by the defense as their first witness, and from questions put to him it is evident that Beattie's lawyers are laying the ground for an explanation of how the

## Lusitania Is After New Record

New York, Aug. 31.—The Cunard liner Lusitania, which left Liverpool at 6 o'clock Monday, is making for this port with all speed, and is expected to break the record in getting here and out again. She will arrive Friday and is scheduled to leave again at 6 p. m. Sunday. If she does that, she will break the record made by the Mauretania last December by 10 hours. The vessel is to make this attempt so as to gain on the lost time which resulted owing to the big strike in Great Britain.

## High Prices Cause Riots

Paris, Aug. 31.—The riots occasioned by the increased cost of living are spreading to many localities, many disorders being reported from various towns in northern France. More than a score of towns have suffered. The police of most of the towns were unable to cope with the situation, and many shopkeepers who were willing to sell at the prices demanded by the women have been molested by hoodlums.

#### Census Director Makes Public Some Valuable Statistics.

Washington, Aug. 31.—Census Director Durand today issued an official statement containing statistics relative to the leading crops of Ohio, collected at the census of 1910. The leading crops of the state for 1909, ranked in the order of valuation, were: Corn, \$83,327,000; hay and forage, \$42,357,000; wheat, \$31,113,000; oats, \$23,212,000; potatoes, \$9,378,000; tobacco, \$8,999,000.

During the 10 years from 1899 to 1909 corn increased 90,037 acres, or 2.4 per cent. The total yield in 1909 was 157,513,000 bushels; the average yield per acre, 40 bushels; the average value per acre, \$21.

For the decade ending 1909 hay and forage showed an increase of 291,200 acres, or 9.7 per cent. The total yield in 1909 was 4,521,397 tons; the average yield per acre, 1.4 tons; the average value per acre, \$12.80.

Wheat, in the decade from 1899 to 1909, decreased 1,381,142 acres, or 43 per cent. From 2,556,134 acres in 1879, wheat dropped by 1889 to 2,269,585, rose by 1899 to 3,209,074, but again fell by 1909 to 1,827,932. The aggregate yield in 1909 was 30,663,704 bushels, of which 30,651,880 bushels was winter wheat. The average yield per acre was 17 bushels; the average value per acre, \$17.

Oats, between 1899 and 1909, increased 672,347, or 60.3 per cent. From 910,388 acres in 1879, oats rose to 1,215,355 in 1889, fell to 1,115,149 in 1899, and rose again by 1909 to 1,787,495. The total yield in 1909 was 57,663,142 bushels; the average yield per acre, 32 bushels; the average value per acre, \$11.

## Cotton Crop Dropping

New Orleans, Aug. 31.—Opinion in the cotton market is more divided than usual over the government report on the condition of the crop due to be published Friday. The September report is looked upon as probably the most important this season. It is generally acknowledged that deterioration has taken place since the last report; the dispute is over how great the deterioration has been. The deterioration of the month was due in a large measure to the drouth and high temperature.

## Stolen "Mona Lisa"

#### An American Art Connoisseur Under Surveillance.

New York, Aug. 31.—Collector Loeb of the port of New York announced that an American art connoisseur now in Europe is under surveillance by foreign agents of the United States government, co-operating with the French government, in the search for the picture Mona Lisa. Leonard Da Vinci's \$5,000,000 masterpiece, which disappeared from the Louvre in Paris 10 days ago. Further than the knowledge that the American under watch was in Paris at the time of the Mona Lisa's disappearance and was an intense admirer of the painting, there is nothing to connect him with the actual disappearance, Mr. Loeb said.

#### Passengers on Big Liners Play Games to While Away the Time

Photo copyright by American Press Association, 1911.

PASSENGERS on the big Atlantic liners have many ways of passing the long days while the steamship races along on its way across the ocean. One of these games is shown in the picture above. It is a jumping rope race between girls and women who were second cabin passengers. Small prizes were offered for the winners, and an admission fee was charged. The sums paid by the spectators were added to the seamen's fund. In the first cabin concerts are always given, any actors or actresses who may be on board usually donating their services to help the same worthy charity. The marks that appear on the deck above were made in a sort of hopscotch game that had preceded the race. When the weather is calm these big vessels—the picture was made on the Mauretania—move along steadily, and nearly all of the passengers spend the daylight hours on deck.

## Cashier of Gotham Hotel Held On An Ugly Charge

#### Arraigned Before a Magistrate and Gives Bail

New York, Aug. 31.—Frank J. Dorlan, for 12 years a cashier of the Manhattan hotel, was arraigned by Magistrate Breen on a charge of embezzlement. The affidavit specifies the sum of \$222. The affidavit recites that a guest of the hotel turned in a check for \$222 in payment of his bill. It is then alleged that Dorlan took \$222 in cash from the cashier's drawer and put the check in the drawer in its stead. Assistant District Attorney Minton asked Magistrate Breen to fix bail at \$10,000. He said that while the amount specified was only \$222, he understood that the defendant had been accused of an embezzlement of \$50,000 and had confessed to embezzlement of about that amount. After some discussion Magistrate Breen fixed the bail at \$5,000.

## Would Eliminate Middle Man

New York, Aug. 31.—A crusade was started here by 300,000 members of the New York and Pennsylvania state leagues to reduce the cost of living. Their representatives met in conference to decide on a plan to eliminate the commission merchant and broker, by sending their produce to a central distributing point at which they will sell direct to the retailer. If this crusade is successful the movement will be a national one.

There will be four Sunday meetings, in which Senators LaFollette, Bourne and Borah will speak.

# MAN FOUND IN BOX CAR SICK AND STARVING. ON LONELY BOGUS ROAD SIDING

Delirious With Fever and Dying  
for Lack of Food

VOLUNTEERS AFFORD HIM AID

Hurried to the Infirmary in the  
Nick of Time--Recovery is  
Now Probable.

Starving to death amid a land of plenty, and but for the fortunate discovery made by a resident of the Bogus Crossing of the D. T. & L. James Barcy, 25, would now be free from pain and a corpse in a box car at Bogus Crossing.

Barcy was discovered in a box car late Wednesday afternoon, and was in such a serious condition that a physician was called, brought to the spot where the man was said to be, and found the wasted form of a fairly well dressed man reclining on a pile of straw, chattering away in the wildest delirium, and with his face hot with the fever which sent his blood through the veins like fire.

After administering what medicine he thought best, the physician returned to this city after having ascertained the man's name, and that he had had nothing to eat for three days and was slowly starving to death.

A search was made for the infirmary directors that the man might be removed to the infirmary, and if possible, save his life. The directors were all in Columbus, it is claimed, and it was seen that unless prompt action was taken the man's death was almost certain.

When Mr. Charles Johnson, proprietor of the Wonderland moving picture show, heard of the affair, he graciously offered his services and the use of his machine in taking the man to the infirmary. The physician and Mr. Johnson, accompanied by a HERALD reporter, climbed into Mr. Johnson's machine, and hurried to where the man lay on his bed of straw in an old box car at Bogus Crossing.

When he heard the party approaching he raised himself to his elbow and gazed wild eyed toward the car door. After a short time he became rational and when asked how he was, weakly replied that he was better, but was almost dead for lack of something to eat. With the assistance of the party, who undoubtedly saved his life, the man was taken from the car, and when he was once in the light, the horrible effects of his three days' fast were apparent in his wasted form, sunken eyes and weakened condition. He presented a sight which would touch the hardest heart; pitiable in his weakness, and with an appetite like a ravenous wolf.

Bit by bit he told his story, of times relapsing into delirium, during which he tried vainly to make himself understood, but his words were jumbled so that one could not make head or tail of his talk.

After being placed in the auto, and while on the way to the infirmary, he became more rational and said that he was the son of John W. Barcy, of near Piketon, and that his father lived alone. He was badly crippled in the left ankle and said he had fallen from a bridge and injured his foot.

He then told the following story:

"I worked at the Canning Factory (Sears) but was half sick all the time. I boarded with my cousin, John Locke, but he kept my money for board. Yes, we had a quarrel, and he cursed me something awful. I left his house Monday morning and started down the river (Paint Creek) but when I commenced to feel sick, I asked which railroad led toward home, and they told me this one. My head commenced turning round and round and I don't remember anything more until I got awake in that box car.

"I did not ask for something to eat because I did not know any one," he innocently continued. "I was never sick this way before, and I don't know what's wrong," he continued in a dazed way, "only I'm awful sick, and awful hungry, I ain't even got a chew of tobacco," he said, and when a "chaw" was offered him, he seized it eagerly.

The fellow was placed in the infirmary and his life probably saved. With a few days proper care he is expected to be able to return home.

The man's condition was one of the most pitiable that has come under the observation of local people for a long time.

## F. W. Cline Asks For Assignment of Dower

Forest W. Cline, one of Paint township's most prominent farmers, has filed his petition in the Common Pleas court making Glenn M. Allen guardian of Helen Louise and Urcell Marie Cline, minor children and sole heirs at law of Urcell M. Cline, deceased, and the two children themselves, defendants in a suit for assignment of his dower in an estate of 298 acres of land in Paint township.

The petition alleges that Urcell M. Cline (nee Selsor) died on March 28, 1910, leaving the above mentioned real estate which became the property of the two children, except his dower in the estate as allowed by law.

Th plaintiff now asks that his dower, or interest in the estate, be set aside and the boundary lines established accordingly.

## AN UNLIGHTED CULVERT ANOTHER NARROW ESCAPE

Another unlighted excavation across a public road, and another near accident are reported on the Greenfield pike.

This time a culvert was being constructed and a trench had been cut across the road. A narrow passageway had been formed by the roadside, but no lights were placed about the dangerous trap after nightfall, and a party of autoists, returning from Greenfield, had just passed a number of rigs when the excavation suddenly loomed up ahead.

Quick as thought, the emergency brakes were applied and the big car slid up to the brink of the excavation before it could be stopped.

The custom of not lighting such dangerous places has already involved the County Commissioners in one damage suit, and if the neglect is continued, lives may be lost, or some one seriously injured.

## May Have October Racing

The officials of The Fayette County Fair Company are rapidly closing up the business of the fair last week, and notwithstanding the wretched weather conditions, it is asserted that the company did a little better than break even on the show.

Several of the directors are listening with favor to the proposal of some of our prominent business men to hold a fall meeting along in October at which some splendid harness races can be staged.

Several years ago before the present Fair Company took hold of the big annual shows an October race meeting was arranged, and some of the crack horses, owners and drivers in the country were here on the ground. Fine sport was promised and an enormous crowd practically

## Mrs. Allen L. Hyde Died Last Sunday

Mrs. Elizabeth (Grimes) Hyde, the wife of Allen L. Hyde, died at her home near New Holland, at 10:45 o'clock, Sunday morning, after having been ill for several months. Death was due to neuritis.

The deceased was the daughter of the late George Grimes, who was for many years a well known farmer. She was born near New Holland. Besides her husband she is survived by one son, W. G. Hyde, of Chillicothe, a daughter, Mrs. E. N. Huston of Dayton, and several brothers and sisters.

Mr. Allen L. Hyde is a native of this county and brother of Mr. John Hyde. The son, Mr. Wilby G. Hyde, the Chillicothe attorney, is also well known here.

## Annual Meeting Clinton Baptist Association

The annual meeting of the Clinton Baptist Association has been in session in Greenfield the past two days. The meetings are largely attended by the delegates from the different branches of the Baptist church organizations and are of much interest.

## The Steel Range Bunch Is Operating Once More

A gang of steel range peddlers, supposed to be the same ones who visited this county and sold dozens of steel ranges through smooth talk four years ago this fall, are busy in neighboring counties, and are expected to canvass Fayette county again, selling their ranges at \$79 or as near this as they can get, when local dealers sell ranges they claim are better for considerable less money, and back them with a strong guarantee.

The gang of "steal" range agents have struck Madison county, and the Madison County Democrat mentions their appearance by saying:

"The steel range peddler is again working Madison county farmers. A year or two ago a bunch of these slick grafters sold a number of cooking ranges here at \$79 each; ranges which could have been bought elsewhere at twenty-five per cent. less. Besides securing such exorbitant prices for their goods, these peddlers did several other things which gave them an unsavory reputation and some newspaper notoriety. Farmers can save themselves both money and trouble by ordering such stumps off the premises as soon as they light."

## Bolsters Up Beattie Story

(Continued From Page One.)

shotgun, bought at Henry Beattie orders and said by Paul Beattie to have been delivered to the accused on the Saturday night prior to the murder, fell into the hands of the unknown man whom they accept as the murderer.

The lawyers wanted Paul to be very sure that he did not have the gun with him after its purchase and while he was doing duty as watchman on Mayo's bridge, and that he did not leave it in a building, known as the Cement house, near the bridge. It was evident that the defense will attempt to show that the gun was stolen from him after its purchase and never delivered to Henry Beattie.

As far as Beattie's defense revealed itself, it was shown that no attempt will be made to abandon the story which the prisoner has told of his wife's having been slain by the charge of a single-barreled shotgun, fired at a range of about six feet, by a man unknown to Beattie. There was no hint given of a possible defense of insanity, which had been removed during the earlier days of the case; no attempt to establish the ground for a verdict of involuntary manslaughter, through the mishandling of the gun in Beattie's own hands.

The young man's lawyers have evidently decided to stand or fall by the story that their client has interposed in the face of the strong circumstantial evidence against him. This means that unless they can confound the evidence of Paul Beattie, the testimony of that witness, setting forth how Henry made an alleged confession of guilt to him and linking Henry directly with the possession of the shotgun, admitted to be the weapon of assault, will go before the jury as proof of the young man's guilt.

Attorney Smith said that Henry Beattie would not go on the stand in his own behalf until the rest of the case of the defense was all in. The accused, though he has been through a sore trial during the past few days, and the weight of the mental strain is visible upon his features, is eager to face the 12 men who have his fate in their hands.

Elmer Junk, accompanied by his father, Mr. Martin Junk, of Austin, and John Coyner, is attending the State Fair.

Misses Jeanette Bellar and Chris Snider are spending part of their vacation in Columbus, the guests of Mrs. Epperson.

Miss Jessie Sunkle, of Zanesville, is visiting Miss Marion Whelpley at the home of her parents, Mr. and Mrs. James Whelpley this week.

Mrs. John Happeney and baby returned today to Port William after a visit with Mrs. Happeney's parents, Mr. and Mrs. Jess Blackmore.

Mr. C. D. Snider left Thursday morning for Mt. Clemens, Mich., where he expects to spend several weeks for the benefit of his health.

Miss Blanche Casey, who has been the guest of Miss Athel Fultz, left Thursday for her home in Norwood. Miss Fultz accompanied her home for a visit.

Mr. T. A. Bernard, of Lennox, Mich., arrived Wednesday evening for a short visit with his mother-in-law, Mrs. Elizabeth Sparks, of Pearl street. Mr. Bernard formerly resided in this city. At the present time himself and wife, see Miss Katie Sparks, are editing and publishing two newspapers in Macomb county, Michigan.

## NEARLY CHOKED TO DEATH CHILD SEEMS FATED ON SMALL CHICKEN BONE

Tot Was Born Two Years Ago  
While Mother Was on  
Death Bed

SUFFERING WITH SCARLET FEVER

Literally Snatched From the Jaws  
of Death Twice In Its  
Short Life.

Choked on a chicken bone until it was at death's door, and relieved after days of greatest agony, is what befell the little two-year-old child of Charles Jones of near Good Hope—the same child, who, two years ago when its mother was suffering from scarlet fever and who later died, was ushered into this world and withstood an attack of the same dreaded fever.

The child with its brothers and sisters, was brought to the fair last Thursday, and while eating a piece of chicken, was seized with a violent

coughing and strangled until it was purple in the face. A physician was called and had the child removed to its home, where it continued in a very precarious condition for several days, while the home physician did all in his power to alleviate the little one's agony and save its life. All efforts were futile, and the child was fast, wearing away its little life under violent paroxysms of coughing and continued hard breathing, when it was decided as a last resort, to take the child to Dr. Bowen of Columbus.

This was done, and after examining the child with the assistance of an X-ray and not being able to locate any foreign substance, the child was placed under the influence of an anaesthetic and delicate instruments, with electric lights attached, were used in examining the child's throat.

A piece of chicken bone was found lodged in the child's throat between the vocal cords, and was removed without injuring the inflamed membranes, and its life was saved.

After the bone was removed and the child regained consciousness, it began to recover rapidly, and is now almost well again.

## New Automobile Record Made at Elgin Track

Mr. and Mrs. James Ford are attending the State Fair.

Misses Frances and Mary Gwinn, of Columbus, are visiting friends here.

Mr. George Jackson has been among the week's visitors at the fair.

Mr. A. P. Lynch, of the Cherry Hotel, is in Columbus to attend the fair.

Mr. Clifford Morrow, of near Cleveland, was the guest of his uncle, Dr. J. F. Dennis, last night.

Mrs. S. E. Parrett left Thursday afternoon for Blue Ridge Summit, Md., to spend a couple of weeks with her daughter, Mrs. Lewis Syester, of Hagerstown, Md., at her summer home.

## New Patients At Hodson Hospital

As the Hodson hospital patients recover and leave for their homes, the vacant places are promptly occupied by those on the waiting list.

One of the most serious operations of the week was a case of Dr. L. M. McFadden's, Mrs. Elton Rhoades, of Upper Paint township. The operation shows every indication of being entirely successful.

Wednesday, Mr. Cary Free brought his eight-year-old daughter up from Bainbridge to be operated on for adenoids. The young girl is resting comfortably today and will return home in a short time.

Anxious friends are greatly relieved to learn that Miss Lucy Gillespie has passed the crisis in an unusually severe case of typhoid fever. The fever followed a weakened condition, the result of long months of nursing and anxiety on Miss Gillespie's own part, and her condition for some time was grave. She is now thought to be on the high road to recovery.

Last Saturday, Len Zengel, who won the Elgin national trophy over Elgin, Illinois, course last Saturday, on a National car, averaged 66.42 miles an hour for the entire distance of 305 miles, establishing a new record for the course. Ralph Mulford, last year's winner, averaged 62.5 miles an hour. In Saturday's contest Harry Grant, twice winner of the Vanderbilt cup, finished second and Hugh Hughes, who won the 170 mile Kane County trophy Friday, was third. Grant drove an Alco car and Hughes a Mercer. Like Zengel's National, they were both equipped with Michelin tires. Zengel never

## Miss Cleaveland's Successor Is Chosen by School Board

The Board of Education has elected Miss Elizabeth Dana, of Fondulac, Wis., as supervisor of drawing, to succeed Miss Bess Cleaveland. Miss Dana has been engaged upon the highest recommendations, both from Grossport, Mich., where she has held the same position, and from the Thomas Training School, Detroit, Mich., from which she is a graduate. Miss Elizabeth Sheen, supervisor of music in our schools, is a graduate from the same school.

The Board has also added to the corps of special teachers, a commercial teacher in the election of Miss E. Cree Butler, of Carrollton.

The growing tendency in favor of the business courses has made instruction along the lines of commercialism imperative. Last year Supt. McClain and Prof. Probasco took charge of these classes, but with their regular work it was impossible to cover a field sufficiently broad to take in all classes required in the business course. With the employing of Miss Butler as special commercial teacher instruction in all desired branches can be given and the student can leave our Public schools equipped with a business education that is of practical account in this bustling money-making world. The commercial course is one of particular importance and value to the boy or girl whose circumstances demand speedy return for the educational investment, and the employment of a commercial teacher will undoubtedly meet with general approval.

## Budget Commission in Session

The County Budget Commission, composed of Prosecuting Attorney Gregg, County Auditor Henkle and Mayor Rell G. Allen, has been in session most of the day.

The work of finally closing up the tax levy for the county for the year 1911, can not be done yet for the reason that there are several important bits of information not officially on file with the commission.

The valuation of all property throughout the county is not yet finally and officially determined upon and that fact certified in to the County Auditor.

The State Tax Commission has yet some official information and instructions to forward to the local commission before the work can be closed up.

Most of the information necessary, however, is known to the members of the commission unofficially and the day has been consumed in a general going over the entire field with a view to determining approximately what will be necessary to be done to hold the rate down to the legal limit.

It is expected that the official information will shortly be forwarded to the officials and the work now being

done will greatly facilitate the work of closing up the details accurately.

In the preliminary work now on another snarl in Washington's affairs came to the surface. It is said that the new law requires that the county commissioners, trustees and city councils must certify to the Budget Commission an elaborate statement showing just what the money realized in the preceding years was expended for, in order that if it becomes necessary to cut, the Commission can be advised of just what funds can and what cannot be pruned down.

The making out of the reports requires quite a considerable amount of detail work. So far the statement for Washington is not on file.

At the request of Prosecutor Gregg the clerk of the city council was sent for and he reported that he had not made out the statement and that it was not his business to make it out.

While as yet the matter has resulted in no serious delay, yet the time is fast approaching when the Commission will be down to brass tacks and then Washington's report had better be in or there may be some knifing in the wrong funds.

## SALE OF RED CROSS SEALS TO FIGHT TUBERCULOSIS PROMISES TO EXCEED FORMER YEARS

If expectations for the sale of Red Cross Christmas Seals this year, as announced by the National Association for the Study and Prevention of Tuberculosis today, are realized, one hundred million of the holiday stickers or a million dollars worth, will be sold.

The National Tuberculosis Association will this year for the first time be National Agent for the American Red Cross in handling the sale of seals. A new National office has been opened in Washington and an initial order has been placed for 50,000,000 seals. It is expected that double that number will be sold. The cost to agents for the seals will be 12½ per cent. of the gross proceeds, the national agent furnishing the seals and advertising material, and taking back all unsold seals at the end of the season.

Postmaster General Hitchcock has approved the design of the seal. Owing to the fact that many people last year used Red Cross Seals for postage, the Post Office Department has given orders that letters or packages bearing seals on the face will not be carried through the mails.

This will be the third year that the seals have been sold on a National basis. In 1908 over \$135,000 was realized from the sale; in 1909, nearly \$225,000; and in 1910 nearly \$310,000. The slogan for this year's sale is "A Million for Tuberculosis from Red Cross Seals."

New York State led the sale last year with 5,955,872 seals, Ohio coming next with 3,743,427, and Wisconsin third with 2,770,112. In addition to these, Pennsylvania, New Jersey, Massachusetts, Connecticut, California and Rhode Island sold over a million each. Nashville,

Tenn., selling 200,000 was the only city receiving over 100,000 seals which sold every one of them.

Announcement is made of the annual meeting of the Ohio Society for the Prevention of Tuberculosis to be held in Columbus, on Saturday, September 9th, at 11 o'clock a. m., in the offices of the secretary of the State Board of Health, in the annex of the State House. Amendments to the Constitution of the Society and the election of directors will be the principal business to be transacted.

## Taking Evidence By Deposition

Before the official stenographer, Mrs. Stella Hendryx, at the Court House this morning the deposition of Miss Mary Pavey, is being taken for evidence in the case of The Dice-Mark Hardware Company against Mary Pavey and others.

The law suit grows out of a disagreement over the new bank building erected by the defendant on Court street.

William B. Rogers represents the Dice-Mark Company and C. A. Reid and Frank A. Chaffin of this city, and Chas. C. Pavey, of Columbus, are looking after Miss Pavey's interests.

## HIGH FLYERS.

The term "High Flyers" is one which has been widely used for a long time before the airship invaded with practical results and comparative safety to the operators, the high atmosphere.

Comparatively few of the birdmen have developed high flyers and the most of those who have attained for account of the altitude reached in flights have met death in their career.

Strange to say the term so long in use has not been generally applied to the men who navigate the air.

Even since the advent of this new and rapidly growing class of entertainers or workmen as it may please the public to call them, the old-time phrase is still reserved for the class of people who insist in going at a financial pace which they cannot, as a general thing, keep up.

Coal Oil Johnny was the first real high flyer in our national history—the man who made way with an enormous fortune in a few days' time and in doing so indulged in all sorts of wild excesses.

Since then every community has had its Coal Oil Johnny and its high flyer on a smaller scale, depending upon the community and the financial ability of the miniature high flyer to soar in the financial atmosphere to heights from which he must sooner or later experience a drop.

Many individuals in business and private life insist on doing the high flying act and to this alone may be attributed almost entirely the disasters which come whenever the deadly cross currents of financial storms hit them.

The high flyers in the every day business world increase with each day and every disturbance of the financial affairs of the nation shows up an amazingly large number of people who have been sliding along on the atmosphere for a long time.

Strange, though, that for years this term which now literally applies to a class of men actually engaged in the business of flying high, should have been so long of general use before the real high flyers were even dreamed of.

Now that the phrase has become applicable the public refuses to transfer its application from the class to whom it has been for many years applied figuratively, and tack it onto the class to whom it literally applies.

Another one of the mysteries of our wonderful language and the way we use it.

## Meddling Men

## Sure Way of Success Is Mind Own Business

By REV. MADISON C. PETERS

THE busybody is a self-appointed inspector of social warts, a sort of supervisor of other people's domestic affairs, for the busybody generally begins by reporting domestic infelicities.

From the frequency with which the Bible speaks of these people I take it that they may be considered the worst foes of society. Women generally get the credit for all the busyboding; but the men are as bad blabs as the women. Indeed, many women have become so useful to the community that they have retired from the gossiping business, and babbling, tattling, sly-whispering and impertinent meddling men have succeeded them and are trespassing constantly on the community with their tongues.

The busybody is remarkable for his health. He can live on anything; he usually carries with him a bag of reputations made up in cold hash so that he doesn't have to stop for meals. He has long legs and can go a thousand miles at a jump, while he has great genius for smelling. His peculiarity is acuteness of ear, for he can hear as much through a keyhole as from a door wide open.

When Commodore Vanderbilt was asked how he made so much money, he said he made half of it by minding his own business and the other half by not minding other people's business.

The reason why men succeed who mind their own business is because there is so little competition. There are many people so busy minding other people's business that I wouldn't be a bit surprised in the resurrection day to see some of these everlasting snoopers getting out of the wrong graves.

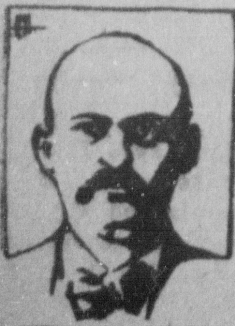

Without any intention, perhaps, of doing injury to your neighbor, a careless remark may be seized by a babbler, and as a snowball grows by rolling it, so does a story by telling; it passes through the babbling tribe, growing larger and larger, and darker and darker, and by the time it has rolled through Babbletown it has assumed the magnitude and blackness of base slander.

Philip de Neri was visited by a woman, who accused herself of slander. He bade her go to the market, buy a chicken just killed and still covered with feathers and walk a certain distance, plucking the bird as she went. The woman did as she was directed and returned, anxious to know the meaning of the injunction.

"Retrace your steps," said Philip, "and gather up, one by one, all the feathers you have scattered."

"I cast the feathers carelessly away," said the woman, "and the wind carried them in all directions."

"Well, my child," said Philip, "so it is with your words of slander; like the feathers which the wind has scattered, they have been wafted in many directions. Call them back now if you can. Go, sin no more."

## POETRY FOR TODAY

## SHE THAT I LOVE.

She that I love all dearness has,  
 All wisdom in her eyes,  
 With her fair hands she keeps my soul  
 In its first paradise.  
 Her large looks cleanse my thoughts  
 As dawn  
 Makes perfect the dim skies.

She knows that when I die, her heart  
 Is the heaven where I go,  
 That through her eyes I look on God  
 And through her thoughts I know.  
 Yet once I said, "My weary love,  
 What burden grieves thee so?"

I have wrought a paradise  
 We might always be,  
 Well she knows for love of her  
 Soul is good to see  
 Broken heart," she said, "dear love,  
 That got a wound from thee."

For there's never a man that  
 woman  
 But breaks  
 Yet will

sons of Cain.  
 Hempstead Branch, in Exchange.

Light colored gingham or white material of some sort may be worn by the woman who does only the lightest sort of housework. Over this she may wear a big gingham apron, with either long or short sleeves and which reaches to the bottom of the dress. When she answers the door bell she has only to slip off her apron to appear at the door neatly attired in a light dress.

A useful kitchen apron of gingham or calico which protects the whole gown by reaching from the middle of the chest to the bottom of the skirt is easily made. Take two widths of the goods. One width forms the front, and the other width, cut in halves, forms the open back of the apron. Make a two inch doubled and bias band of the goods, turned at four corners to form a square yoke for back and front, which joined together, also forms the shoulder straps. The arm holes are simply formed by leaving the required space in the under arm seam.

Many women who must prepare an early breakfast, and who find it a task to rise early enough to dress their hair prettily before starting on the morning task, may make a becoming and neat appearance if they will wear thin white caps to cover the hair. A little bride who lives in the outskirts of a city and who has to rise early has several of these caps made of linen lawn, in her trousseau, and it is a dainty little white capped woman who pours the coffee at the morning meal. Her husband declares she is prettier in her little breakfast cap than in her "dress up" hat, all of which is an inducement for her to look neat.

## What Eggs Will Do

The white of an egg mixed with either olive or castor oil makes one of the most soothing and healing applications for a burn.

A raw egg swallowed immediately afterward will carry a fishbone down that has become caught in the throat.

A mustard plaster, if mixed with the white of an egg, will act quite as well, and will not leave a blister.

The white of an egg beaten with a little sugar and a little lemon juice will relieve hoarseness.

**LIGHT POUND CAKE:**—Cream well together six ounces of butter and eight ounces of powdered sugar; add the beaten yolks of four eggs and beat again; add one-quarter of a teaspoonful of salt and seven ounces of sifted pastry flour. Beat hard, add the stiffly beaten whites of the eggs and beat again for at least ten minutes. As no baking powder is used the lightness of the cake depends upon the eggs and the amount of beating and there can scarcely be too much of the latter. Bake in three layers and when cold put together with boiled icing.

**EGG PLANT FRITTERS:**—Peel the egg plant and cut it into inch dice. Drop into boiling water to which has been added a teaspoonful of lemon juice; boil until tender, drain and mash. To each pint of pulp allow one-half of a cupful of flour, one-quarter of a teaspoonful of pepper, one-half of a teaspoonful of salt and two well beaten eggs. Form into small cakes and fry brown on both sides.

## THIRTY YEARS TOGETHER.

Thirty years of association—think of it. How the merit of a good thing stands out in that time—or the worthlessness of a bad one. So there's no guesswork in this evidence of Thos. Ariss, Concord, Mich., who writes: "I have used Dr. King's New Discovery for 30 years, and its the best cough and cold cure I ever used." Once it finds entrance in a home you can't pry it out. Many families have used it forty years. It's the most infallible throat and lung medicine on earth. Unequaled for lagrippe, asthma, hay-fever, croup, quinsy or sore lungs. Price 50c, \$1.00.  YOUR BIBLE QUESTIONS WILL BE ANSWERED IN THESE COLUMNS, OR BY MAIL IF SENT TO THE EDITOR OF THIS JOURNAL.

Q.—It is a well known fact that many modern Theological teachers are repudiating the inspiration of the Bible and teaching their own wisdom, such as Evolution of man, etc. Why is this and what effect will it have on the rising generation?

Answer.—We are living in a peculiar time, evidently the time mentioned by the Apostle Paul when he said, "For the time will come when they will not endure sound doctrine; but after their own lusts shall they heap to themselves teachers, having itching ears (desiring the praise of men, hence advancing their own doctrines); and they shall turn their ears from the truth, and shall be turned to fables" (II Timothy iv, 3, 4); that is to say, they will repudiate the doctrines of the Bible and turn to fables, such as men evolving from monkeys, etc.

It behooves the people to study their Bibles more closely. Those who become careful and reverential students of the Scriptures are invariably elevated to a purer life. Recently a modern theological Higher Critic was traveling through the man-eating Cannibal section of Africa. He observed a native reading some book and asked, "What are you reading." The native replied, "The Bible." "Why, that book is out of date in my country," responded the Higher Critic. The native answered, "If it was out of date in this country you would have been eaten up long ago." Some missionaries had taught the native how to read the Bible, and the effect upon him was that he ceased to be a cannibal.

## At the Jumping Off Place.

Colonel John H. Carroll, the Burlington railroad lawyer, was in Washington last winter and, needing the services of a man to travel with him in his private car, hired a good looking and well recommended young fellow from Virginia whom he happened to meet.

The man's name was Gilbert, and he never had been on a railroad train except to come up from his Virginia home to Washington. He traveled with the colonel back and forth between Washington and New York, New York and Chicago and Chicago and St. Louis and rode a good deal on the observation end of the car. All the roads the car went over were two track or four track roads.

Not long ago the colonel had his car switched off on a single track road in Ohio during the night. When Colonel Carroll awoke in the morning and went out to the observation end of the car he found Gilbert contemplating the single track with much interest. "Colonel," he said, "this here railroad seems to run only one way. How are we goin' to git back?"—Saturday Evening Post.

At Mexico City, Francisco I. Madero was formally nominated for the presidency by delegates representing 1,500 clubs in national convention of the Progressive party. James Pollock, a riverman of Towson, Md., successfully shot the St. Marys river rapids on a log. For his feat he received \$35. Pollock is the first man to shoot the rapids, which are a mile and a half long, unassisted in a boat.

## THE STRANGE PEER.

His Nonchalant Debut in the British House of Lords.

On one occasion a gentlemanly appearing individual walked boldly up the steps of St. Stephen's, London, passed the various officials, turned into the house of lords passage and in a self possessed manner entered the robing room.

"Lord Normanby's robes."

The attendant looked surprised.

"But, my lord," he began

"I know it's absurd," said the stranger, "but my tailor cannot finish my robes in time, and I must attend this sitting. Lord Normanby was so kind as to offer— You understand?"

"Oh, certainly, my lord," responded the rober.

The crimson and ermine was produced and donned, and the pseudo peer strolled into the house, where a few

### O'Toole Issues Ten Fasses, but Boston Finds Him Unhittable.

Boston, Aug. 31.—It was a lucky win that Marty O'Toole got away with for Pittsburgh in the first game of a double-header, his first appearance in the box for the Pirates. In the second game Cy Young, the veteran, pitched the locals to a shut-out, 6 to 0, and was never in danger. The \$22,500 wonder, whose delivery was received by his \$5,000 catcher, Kelley, was wild as a hawk, probably due to a case of nervousness. He passed 10 men, forcing in one run with a base on balls, but Boston could not hit him. O'Toole has \$22,500 worth of pitching stuff in him, it is believed, as he was able to steady down well several times, and struck out nine men. At the bat he showed good form, getting two singles. Kelley's poor batting resulted in his being benched in favor of Gibson.

Report Illegal Expenditures.

Columbus, O., Aug. 31.—State Examiners F. H. Doyle and S. A. Mitchell reported to State Auditor Fullington that they had checked up the Franklin county offices for the period from March 1, 1905, to Jan. 1, 1911, and that during that time county officials had made illegal expenditures amounting to \$2,746.24, of which they could discover no way in which it could be recovered, and that \$7,256.82 was due the county from present and former officials.

Scores at Camp Perry Shoot.

Camp Perry, O., Aug. 31.—The ninth annual tournament of the national riflemen passed into history with the completion of the united service match. The navy team of 20 was victorious in the united service match, its score of 4,263 points being closely followed by the National Guard score of 4,217. The army team shot 4,109 and the marines 3,861. This is a new match, but it aroused deep interest.

## HEALTH HINT FOR TODAY.

Flies Purveyors of Disease.

There is no doubt that flies can carry the germs of typhoid and other diseases and plant them where the soil is favorable. We may be immune to typhoid and consumption, but if we could see the feet of the fly through the microscope and guess where he gathered the filth that he often carries when he alights on the dining room table we would give him no quarter.

### ATTACK LIKE TIGERS.

In fighting to keep the blood pure the white corpuscles attack disease germs like tigers. But often germs multiply so fast the little fighters are overcome. Then see pimples, boils, eczema, salt-rheum and sores multiply and strength and appetite fail. This condition demands Electric Bitters to regulate stomach, liver and kidneys and to expel poisons from the blood. "They are the best blood purifier," writes C. T. Budahn, of Tracy, Calif., "I have ever found." They make rich, red blood, strong nerves and build up your health. Try them. 50c at Blackmer & Tanager.

### Black Fridays.

In England the term Black Friday was first applied to Dec. 6, 1745, the day on which news reached London that the pretender, Charles Edward, had reached Derby. Again on May 11, 1868, when the failure of a large English discounting institution brought on a most disastrous panic, the day was called Black Friday. On the day of the suspension the Bank of England raised the rate of discount 9 per cent. Wild speculation in gold in New York and other cities culminated in a monetary crash on Sept. 16, 1875, that swept thousands of firms and individuals into financial ruin and caused a commercial depression that extended into the eighties of the last century; hence the origin of the term Black Friday in the United States.

### Printers to Help McNamara.

San Francisco, Aug. 16.—John J. San Francisco, accused in Los Angeles of being the principals in the plot which ended with the destruction of the Los Angeles Times building and the murder of 21 men, are sure of support from the International Typographical union. Whether the support will be anything more than moral, will be decided when the convention votes on a bill providing a donation of \$10,000 to the defense.

### Value of Fat.

The popular view of the close connection between fat and good nature and weight and balance is not wholly without rational foundation. Fat, unpleasant and stodgy as it is, is one of the most valuable tissues in the human body, and any man who reduces his share of it below a certain reason able level not only takes the smooth edge off his temper and balance off his powers of judgment, but exposes all of his internal tissues, notably the muscles, nerves and secretions, to danger of such starvation and disease. A moderate cushion of fat is one of the best buffers and buffers against the "slings and arrows of outrageous fortune," whether in the form of disease germs or in strains upon endurance. The man who makes himself into a lean and hungry Cassius even with the best of intentions is very apt to get himself into a state of both mind and body where he is more fit for treason, stratagem and spoils than for comfort, wholesomeness and a long, happy life.—Dr. Woods Hutchinson in Outlook.

### A West Indian Fish Dish.

A novelty to the jaded palate and a delightful luncheon or supper dish is made of equal quantities of potatoes and fish, halibut or cod preferred. Butter well a deep baking dish and first put in a layer of breadcrumbs, then a layer of sliced onions, then a layer of the fish. Cut in fairly small pieces and entirely free from skin and bones. Season well and repeat until the dish is nearly filled. Sprinkle each layer with small bits of butter. Now pour over it all a pint of tomato ketchup and finish with a layer of buttered breadcrumbs. A layer of sliced tomatoes may be put in and will improve the flavor. Bake in a very slow oven for at least four hours and baste three or four times with a mixture of vinegar, flour and water, watching it carefully to prevent scorching. This dish has an unpronounceable and decidedly unappealing name, but it is very good and decidedly out of the ordinary.—Philadelphia Press.

### The Absolute Zero.

What is the absolute zero of temperature? The zero of thermometers is purely conventional. The inventor of the centigrade simply took for zero the coldest temperature known in his day, while Fahrenheit had even less ground for his selection. Absolute zero is a point fixed by nature and may be arrived at in a variety of ways. All gases expand or contract equal amounts for every degree of heat. The amount of 1-273 of their volume for each degree centigrade. If, then, a gas is cooled down continuously it must reach a point at which further contraction is impossible, if a gas loses 1-273 of its volume at each downward degree of centigrade then in 273 degrees it would exhaust this power and become a solid; hence (minus) 273 C. is the absolute zero of temperature. This answers to 461 F.—Louisville Courier-Journal.

### Belief in Ghosts.

In most of the Oriental countries, notably in China and in many quarters in Europe, the belief in ghosts is still active, quite as much so as it was a thousand years ago. The peasantry of Russia, and especially of Siberia, are in constant dread of ghosts, and much of their time is taken up with devising ways and means of safeguarding themselves against their visitations. Not even in the United States of America is the ancient superstition defunct. The negroes are notorious believers in ghosts, and thousands of white people, remote from the center of intelligence, are still the victims of the old idea.—New York American.

"I WILL OVERLOOK YOUR SLIP."

peers were waiting, administered a series of affable nods right and left and finally took his place on the woolsack.

For full thirty seconds he sat there, while those present tried to collect their faculties. Then he slowly arose and, remarking to the clerk, "How stupid of me—I now remember I have an appointment elsewhere," retired from the chamber. In the robing room he remarked, "Thank Lord Normanby and tell his lordship I have just recalled a pressing appointment with the king."

"Yes, my lord. What name?"

"What name?" echoed the other, in assumed astonishment. "What name? Really, my good fellow, you must be careful—very careful. It does not do to forget yourself in this assembly. But I will overlook your slip this time. Good morning."

That evening it was known at the Beefsteak club that Caulster, the actor, had won a bet of \$250.

### The Ruling Passion.

A little while ago two senators who are popularly supposed to represent interests not in accord with Dr. Wyllie's pure food and drug ideals met in a corridor.

"I tell you it's no use," began the first with a dejected shake of the head. "Wyllie will fight till the day of his death."

"Yes," assented the second, "and when he lies cold and the undertaker comes in with the bottles Wyllie will revive with a shudder and he'll hop off the slab and say, 'My man, don't ever tell me there isn't formaldehyde in that stuff!'"—Chicago Record-Herald.

Anson Jones of Girard, O. threw rotten apples into his duckyard and soon found the fowls in a beastly state of intoxication.

### Slashed Wife and Self.

Columbus, O., Aug. 31.—After slashing his wife about the head and shoulders with a razor, perhaps fatally wounding her, Renas Young of Crooksville, Perry county, O., cut his throat at 42 West Spruce street, this city, and is reported to be in a dying condition. He is said to have threatened his wife at Crooksville. He came to Columbus and the near-murder and attempted suicide followed.

### Shooting Follows Collision.

Murray City, O., Aug. 31.—As a result of a collision several days ago, between Clem Miller, a jeweler, and the buggy of Charles Strum, a liveryman, Miller twice shot Strum. The shooting occurred in the livery stable. Strum succeeded in wresting the revolver from Miller's hands before he could fire a third time.

### Mosquito Kills Girl.

Wilkesbarre, Pa., Aug. 31.—Jennie Powell, 8, of Edwardsville, died of poisoning following a mosquito bite. She was bitten a week ago on the arm and the poison spread steadily throughout her system.

### Harmon's Speaking Dates.

Columbus, O., Aug. 30.—Governor Harmon has accepted an invitation to speak at the Appalachian exposition at Knoxville, Tenn., Sept. 16. He will go there on his way home from Spring Lake, N. J., where during the week of Sept. 10 he will attend the congress of governors. On Thursday of this week he will speak at a farmers' picnic near Jackson, Mich. On Thursday of next week he speaks at the unveiling of the Stanton monument at Steubenville.

### Gave Himself Up.

Lima, O., Aug. 30.—James Arthurs, hunted all over the country for the past three months, stepped up to the police station sergeant here and said: "It's no use, fellows, every man's hand is against me and I want to give up." Arthurs was serving time for burglary and larceny at Jackson, Mich., state penitentiary when he violated his parole as a trusty.

### Would Boost Milk Prices.

Cleveland, O., Aug. 22.—Asserting that the price they are receiving for milk does not pay for cattle feed, hundreds of farmers in this district, extending 40 miles east, south and west of Cleveland, are organizing to protect themselves. At present they sell their milk at a rate of \$1.25 per 100 pounds. They believe they should be paid at least \$1.50 per 100 pounds.

### Broken Neck Not Fatal.

Minerva, O., Aug. 25.—Frank Cobb of Malvern, whose neck was broken by a fall in a brickyard a year ago and who did not know it until an examination was made by a physician recently, is in a dying condition at his home. He had recovered from the broken neck, but is now critically ill from liver and kidney trouble.

### WHO ARE ELIGIBLE.

\* Any lady or gentleman living in Washington or in Fayette or adjoining counties will be eligible to enter the great contest.

### HOW TO ENTER CONTEST.

It costs you absolutely nothing to enter the contest. All that is necessary is for you or one of your friends to cut a nomination blank from the Ohio State Register or Washington Daily Herald, fill it out with your name or that of a friend and mail or bring it to the Contest Manager at the Register-Herald office; that will start you in the contest with 500

votes. You may also clip the vote coupons which will be found in this issue and that will count you 100 more votes.

### WHERE THE PRIZES WILL GO.

The person who receives the largest number of votes in the entire contest will receive the Schaff Bros. Player Piano. The person who receives the second highest number of votes will receive the H. Link & Son Upright Piano with this restriction, that if the player piano is won in district No. 1, the upright piano must be awarded to the opposite district, or vice versa. In this way one of the grand prizes will be won in Washington and one outside of Washington. After the grand prizes have been awarded, the names of the winners will be stricken from the list and the holders of the first places will then be given the prizes known as District 1st prize. The same plan will be used in awarding the District 2d prizes.

Remember, three prizes will be given to each district, and each and every candidate will receive a square deal. One district will not have the advantage over another. District No. 1 will receive a grand prize and two district prizes. District No. 2 will also receive a grand prize and two district prizes.

Address all communications to the Contest Manager, Register-Herald, Washington C. H., Ohio. See the Contest Manager for instructions and all details of the contest.

## The Soda Fountain Has Done Much Toward Helping the Temperance Cause

Within the last few years there has been hundreds of thousands of Soda Fountains built and put into service throughout the United States. During the same number of years there has been thousands and millions of people drinking these pure fruit juice beverages. Every year there are many more who join this happy and healthful band of Soda drinkers to quench their thirst, satisfy their appetites and relieve their hunger. Thousands who once drank Beer and Whisky and other intoxicants, now drink the unfermented fruit juice beverages, because they find there is no harm in them.

Thousands of towns and cities have driven the Saloon from their midst, but never has any prosperous city or town prohibited the sale of SODA WATER.

# FIRST DOUBLE OFFER FOR NEW AND OLD SUBSCRIPTIONS.

Between Thursday, Aug. 31 and Thursday, Sept. 7, at 5:30 P. M.

It has been decided to make two separate vote offers this week. While this vote winning opportunity is not as liberal as the previous offers yet it will meet with the hearty approval of all candidates.

## Here Is The Proposition:

### For New Subscriptions:

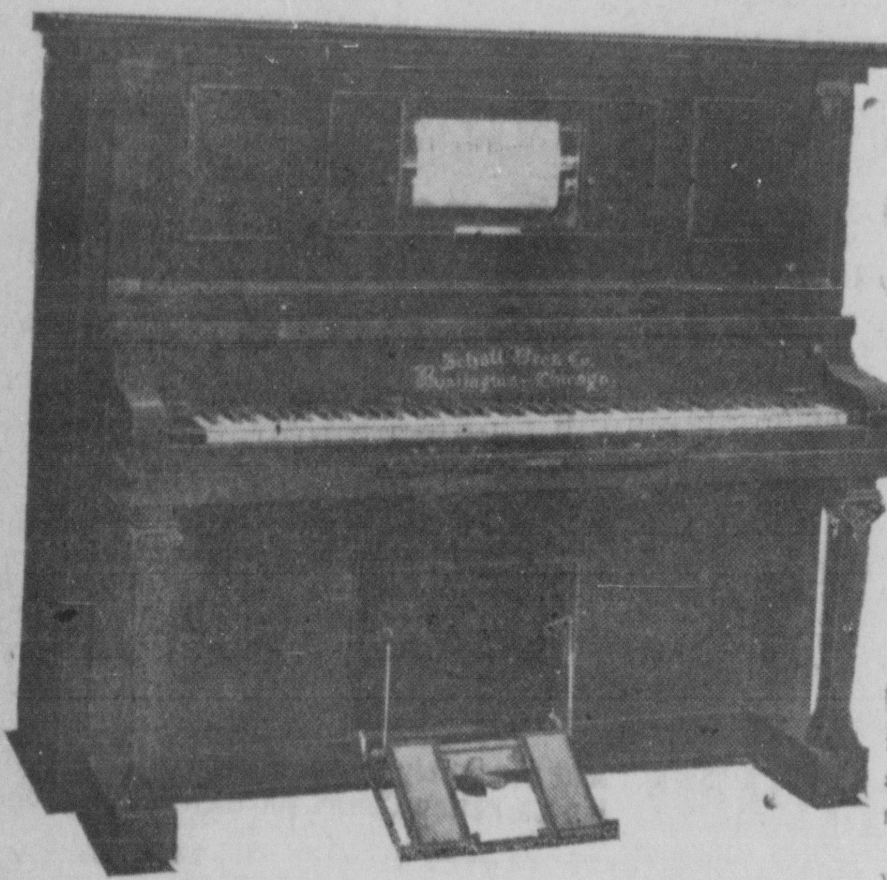

For \$ 8.00 in new subscriptions 6,000 extra votes given  
For \$12.00 in new subscriptions 10,000 extra votes given  
For \$25.00 in new subscriptions 25,000 extra votes given

### For Old Subscriptions:

For \$15.00 in old subscriptions 12,000 extra votes given  
For \$30.00 in old subscriptions 30,000 extra votes given  
For \$40.00 in old subscriptions 50,000 extra votes given  
For \$60.00 in old subscriptions 75,000 extra votes given  
For \$75.00 in old subscriptions 115,000 extra votes given

### REMEMBER:

You have two SEPARATE offers this week. One for NEW and a different offer for OLD subscriptions. *Don't get this confused.* This is positively the largest offer that will be given. So begin. NOW is your next best chance.

**\$600 Schaff Bro. Player Piano**

### First Grand Prize 2nd Grand Prize

#### \$600 Schaff Bros. Player Piano

This beautiful Player Piano will be given to the person having the largest number of votes in the Register-Herald's Great Voting Contest, and was bought of J. A. Smalley, who will shortly have the instrument on exhibition at his store-room on West Court St., next door to the T. C. DeWeese photo gallery, also in Exhibition hall at the County Fair next week.

This player piano carries with it an unlimited warranty and is the most simply constructed player on the market, one lever acting for the tempo, start, stop and rewind, making it possible for a child to operate it and play any style of music, from ragtime to the most classical.

The tone of this instrument, its volume of sound and artistic workmanship have earned for it the distinction of being one of the finest player pianos ever brought into Fayette county. Call at Smalley's store on West Court street and examine this prize.

#### \$265 Link & Son Piano

This piano, also made by the Schaff Bros., of Chicago, Ill., and Huntington, Ind., has no equal on the market for the price. The people making this piano have been located in Chicago since the year 1868, since which time their financial rating has been unsurpassed by any of their competitors. They were the first firm to make upright pianos in Chicago after the great fire of 1872, and a steady improvement has marked the quality of their product ever since.

This piano was purchased from J. A. Smalley and is on exhibition at the storeroom next to the DeWeese photograph gallery. The many excellent features of this instrument, combining a double veneered maple-lined mahogany case, light, perfectly balanced and sympathetic action and soft mellow tone make it one that anyone who is a lover of music would be proud to own.

**\$265 Link & Son Piano**

### DISTRICT FIRST PRIZE

#### \$200 Bed Room Suite

In Circassian Walnut, consisting of one standard sized Dresser, one Chiffonier with five large drawers, and one Bed with the new style roll top head and foot boards.

This suite would adorn a palace. It is a prize that will stand the test of time. It will ever be a thing of beauty, fit to hand down to children and grandchildren as an heirloom of Twentieth Century art.

This prize can be seen at the store of The Fayette County Hardware Co., where it was purchased. This firm's well known reputation for square dealing is a sufficient guarantee that this beautiful prize is all that is claimed for it.

### DISTRICT SECOND PRIZE

#### \$40 HAVILAND CHINA DINNER SET

This eighty-piece genuine Haviland China Dinner Set, which was purchased of S. S. Cockerill & Son, will be awarded as the District Second Prize.

Haviland & Co., the makers of this beautiful ware, and S. S. Cockerill & Son, the local dealers, guarantee each piece in this set to be absolutely perfect in every way. Each piece bears two stamps. The green one shows that the body of the article was made by Haviland & Co., while the red stamp is a guarantee that the decorations are also a work of this wonderful factory. When examining these dishes please note that they bear both the green and red stamps.

This ware is beautifully decorated in gold, and each piece has been kept free from water so that the monogram of the owner may be put on if desired. The set consists of the following articles: 12 Dinner Plates, 12 Pie Plates, 12 B. and B. Plates, 12 Teas and Sauces, 12 Fruit Saucers, 1 meat Platter, 1 Footed Salad Dish, 1 Baker, 1 Sauce Boat, 1 Covered Sugar and 1 Creamer, forming a prize that will not only be appreciated by the winner and admired by all her friends, but that is as good as money will buy.

### DISTRICT FIRST PRIZE

#### \$125 Diamond Ring

This ring was purchased at the store of C. A. Gossard & Co., who guarantee it to be a pure and flawless stone. If C. A. Gossard & Co. added not one word of assurance, this beautiful little gem would speak for itself.

The perfect color, correct cut and proportion give it the scintillating brilliancy that comes only in the perfect stone. It is a gem no better than which adorns the hand of royalty—it is a prize that any young lady may well strive for.

To the energetic woman who wins it, this beautiful gem will be as a legacy in the bank. Its value is eternal and can never grow less. The person who wins this prize is not required to take the ring which we have selected, but CAN HAVE THE CHOICE OF ALL \$125 DIAMONDS in the store of C. A. Gossard & Co.

### DISTRICT SECOND PRIZE

#### \$75.00 Diamond Ring

This stone, purchased of W. H. Hettesheimer, Jeweler, is not quite as large as the diamond offered as the District First Prize, but it is a good sized gem, perfect in color and absolutely flawless. It has a Tiffany setting, and will make a splendid prize for some worthy young lady.

W. H. Hettesheimer guarantees this ring to be exactly as it is here advertised, and the person who wins it can have their CHOICE OF \$75 DIAMONDS IN HETTESHEIMER'S store.

Young ladies, here is a chance to secure that coveted diamond. Perhaps you may never have the opportunity of getting another. Some person is going to be the proud possessor of this valuable prize. Why not you? It will not cost you a cent.
